NUANCE
GLASS HAWAII

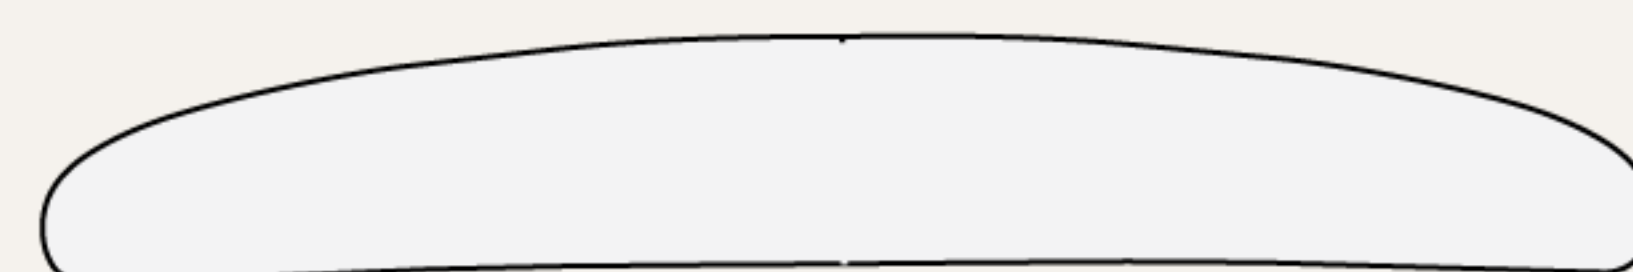

TOP VIEW / DECK

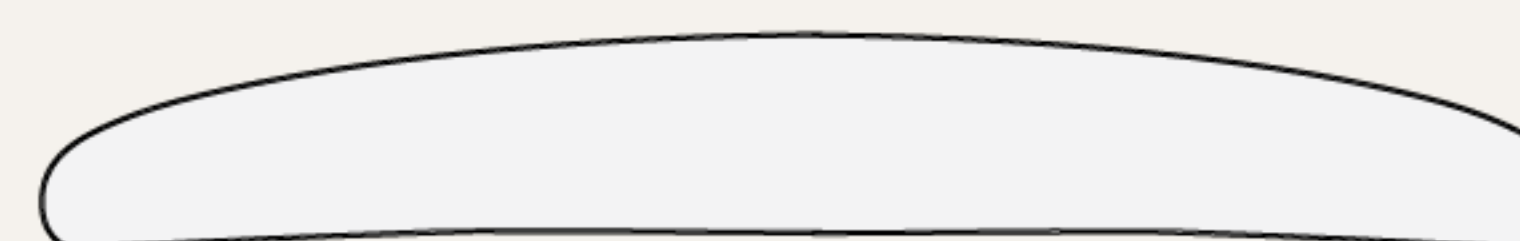

SIDE VIEW / ROCKER

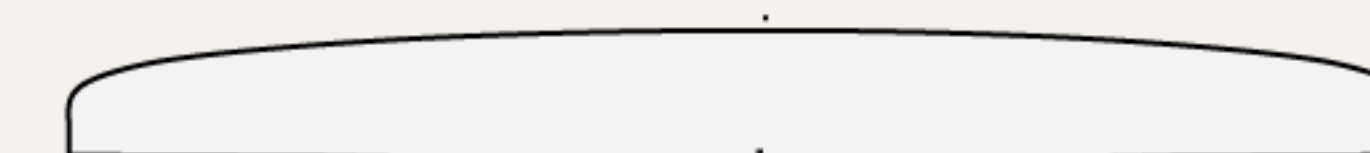

RAIL PROFILE / BOTTOM CONTOUR

MEDIUM LOW RAILS
Engaged but forgiving

SINGLE TO DOUBLE CONCAVE
Speed under foot

VEE TAIL BLOCK
Release off tail

DESIGN NOTES

- Paddle early
- Hold through late takeoffs
- Drive and speed down the line
- Stay controlled in the barrel
- Release smoothly and predictable

Foam forward for paddle power and speed. A low rail for control. A pulled-in tail for hold and release in better quality surf.
